- Member of the National Commission on Accreditation.

ADVANTAGES OF A JUNIOR COLLEGE

Michigan Christian College
800 W. AVON ROAD
ROCHESTER, MICHIGAN 48063

One of the fastest growing educational movements in America today is the junior college program. Enrollments are increasing at an explosive rate, resulting in the birth of new junior colleges each year, and expansion of the facilities of existing institutions. At a recent meeting of junior college administrators, the most pressing problem reported was that of expanding facilities fast enough to meet the increased demand.

This phenomenal increase in enrollment vividly demonstrates the importance of and respect for the junior college.

THE JUNIOR COLLEGE IS AN ACCEPTED INSTITUTION . . .

- **By the students** who are enrolling in record breaking numbers.
- **By the public** which is demanding junior colleges.
- **By the senior colleges** which are cooperating with neighboring junior colleges to improve their working relationship and facilitate the transfer of students. In addition, some senior colleges are recommending to prospective students that they first enroll in a complete junior college program.

Such widespread acceptance makes us ask . . .

WHAT IS A JUNIOR COLLEGE?

Not grades 13 and 14, the extension of high school, but the **freshman and sophomore years of college.**

Not a school for pre-college studies, but a **college where you can complete the first two years of college work.**

Because of its two year college curriculum . . .

MICHIGAN CHRISTIAN COLLEGE OFFERS YOU THESE ADVANTAGES

- **A plateau of achievement.** As you begin your educational program at a junior college, you can, by a proper selection of courses, earn the Associate in Art or the Associate in Science Degree.
- **Opportunities for interscholastic achievement.** In debate and athletics, for instance, you can begin as a freshman to compete with those of comparable ability on an interscholastic level.
- **Opportunities for leadership.** When you complete your college education, the prospective employer will be interested not only in your grades, but also in worth-while extra-curricular activities. He will want to know what offices of responsibility you have held in student publications, student government, and other campus organizations. These offices, usually reserved for juniors and seniors at senior colleges, are held by freshmen and sophomores at the junior colleges.
- **Opportunities in Dramatics and Music.** At the junior college, it is the freshmen and sophomores who receive the leading roles as well as minor roles in dramatic productions, and who are responsible for scenery, makeup, lighting, and the other aspects of dramatic productions. In addition, the freshman finds opportunity to sing in the college chorus without waiting for graduation to open vacancies.
- **A liberal arts curriculum** emphasizing Christian ideals.

Consider these advantages and opportunities . . . all of which are available at
MICHIGAN CHRISTIAN COLLEGE
