You can complete your first two years of practically any bachelor's degree program in any liberal arts college, so why not complete them in an atmosphere where academics include an extra dimension? Yes...Michigan Christian College has that extra dimension...personalized instruction emphasizing the Christian world view.

PERSONALIZED INSTRUCTION Your teachers know you by name. They don't really succeed until you do. They offer you not only out-of-class assistance but their friendship. To them, your success and happiness are important.

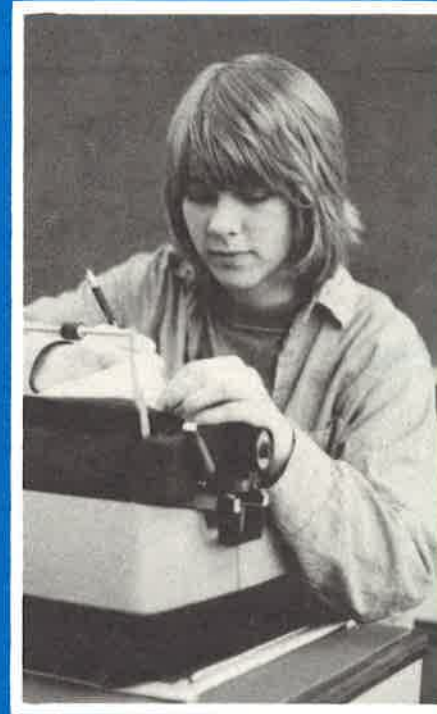

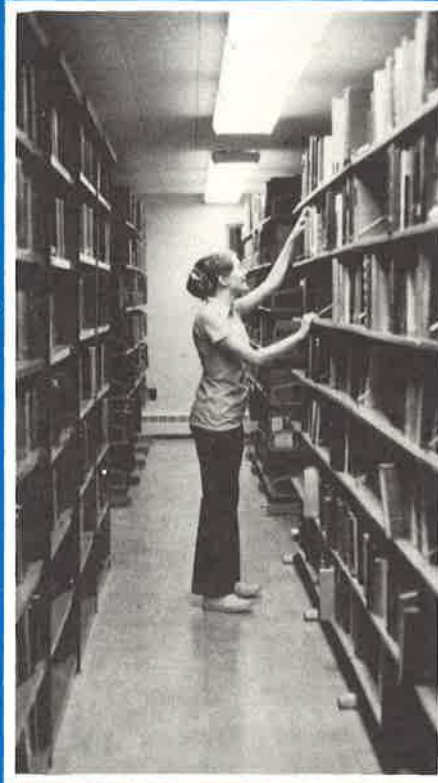

CHRISTIAN WORLD VIEW Your classes are taught by those with a firm commitment to God and His word. Christianity is never scorned, but accepted as the basic truth around which life and learning exist.

FULLY ACCREDITED Your academic work at MCC is fully accredited by the North Central Association of Colleges and Secondary Schools. MCC students have continued their education in over seventy colleges and universities over the country.

ASSOCIATE DEGREE PLANS In two years at MCC, you can earn either the Associate in Arts or Associate in Science Degree. Under such an arrangement you have more than a transcript if you only decide on two years of college. You have completed the core requirements of most colleges and universities so that you are eligible to complete further degrees in practically any field of study within the same time span.

TECHNICAL COURSES If you desire a few special courses during your stay at MCC, you may take them as a guest student at either nearby Oakland University or Oakland Community College and apply them to your MCC degree! The best of two worlds...a small college atmosphere with the availability of classes only a large university can offer!

LIBERAL ARTS APPROACH If you are unsure about a major field of study, you are not alone. The liberal arts approach introduces you to a wide range of future choices while giving you time to decide which is best for you.
