## Warriors achieve a smashing 23-3 season record

Sporting a 22-2 season record and number two ranking in the National Little College Association, the MCC Warriors entered the North Central District Tournament in Orchard Lake, Michigan on March 1. In the first game of the playoffs, the Warriors soundly defeated Nazareth College of Nazareth, Michigan by a score of 68-34.

In the championship game of the tournament, MCC faced St. Mary's College of Orchard Lake, a team which also plays in NAIA competition. Although the Warriors fell to St. Mary's in overtime by a score of 59-55, the game included one of the most exciting moments in MCC basketball history.

Trailing by four points with eight seconds left in the game, the Warriors gained two points when Greg Spraggins of Howell, Michigan made two free throw shots. In the remaining three seconds of the game, Todd Grizzell of Pleasant Ridge intercepted the ball in bounds and passed it to Iantham Alleyne of Barbados, West Indies. Alleyne immediately shot the ball from half court before the buzzer sounded with the ball in the air. The ball then dropped in the basket, resulting in a 48-48 tie which had to be broken.

Those interested in playing basketball with the Warriors this fall should contact Coach Garth Pleasant or the Admissions Office.

## At a Glance

Company, MCC's new traveling drama troupe, completed their first Spring Tour March 1-10. In addition to appearances at two churches, the group performed at Great Lakes Christian College in Beamsville, Ontario, Indianapolis Christian School in Indianapolis, Indiana, Greater Rockford Academy of Christian Education in Rockford, Illinois, and Valley Christian Academy in Burton, Michigan. *Scene pictured above.*

Questions compiled by His Wordsmen became the basis of campus Bible Bowl competition during the winter months. On January 28, all four brother-sister clubs focused on questions from the Gospel of John in qualifying rounds. Sigma Phi-Delta Nu seized top honors on February 25 in the championship match, which covered the book of Acts.

Can college really affect your earning power? According to *Margo's Market Monitor*, it does. The average income of the family whose head is a high school graduate lists at \$23,837. This average increases slightly to \$27,440 for those with some college background and jumps dramatically to \$35,778 for those with a college degree.

Honors Composition students enjoyed the rare opportunity of hearing a world-renowned author speak at Oakland University on February 7. The class attended a special presentation by Alex Haley, author of *Roots*, at the nearby campus.

Planning a program? Autumn is now being scheduled for their summer tour. If you are planning a special program or simply would like to plan a great evening of singing, contact Larry Stewart at (313) 651-5800 immediately.

## Secretarial programs reflect national employment trends

"Today's secretary can get by with a little less penmanship, but they had better be prepared for an electronic future." So began a recent article in *The Detroit News* on February 11. The article continued by stating that local secretaries with word processing skills have twice the chance of getting a job as compared with a year ago. It also cited national survey results indicating a five-fold increase since 1982 in the number of jobs requesting experience or interest in word processing.

Appropriately, all of MCC's secretarial degrees require training in basic computer skills and word processing. This is accomplished on some of the finest equipment available today. Currently, in the secretarial field, MCC offers majors in Executive, Legal, and General Secretarial, as well as Word Processing.
