

Specification for
Im@gine Gateway - Health
Web Site

Title

Im@gine Gateway - Health
Southeast Michigan Calendar of Events and Meetings
Including the seven county area of Wayne, Oakland, Monroe, Washtenau,
Livingston, Macomb and St.Clair.
The word Im@gine will link back to the Im@gine home page.
The words Southeast Michigan will link to a map of the seven counties.

Calendar

The calendar will have the capability of being viewed by month, week or by day.

The calendar will allow searching by county.

The calendar will allow searching by disease or condition or keyword in the organization name or keyword in the event title.

The calendar will allow advanced searching capabilities of combining the day of the week and the condition/disease and the location.

The location option for advanced searching, will allow searching of "all counties" and each of the seven single counties by means of a dropdown box or other mechanism.

The calendar will allow each contributing organization to update their own schedule of meetings by accessing a secure area using a log-on ID and password or other secure mechanism.

The calendar entry on the day of the month will be a link to a fuller description of the event and then to the agency.

Provide a button or link that will go to an explanation of DALNET membership and calendar membership. The membership form will allow for different levels of membership. Forms will be submitted electronically to DALNET staff.

The agency or meeting description page will allow users to register for sessions electronically. Registration will be submitted to the sponsoring agency. Agencies pages without Internet access will state " Please call the sponsoring agency to register."

Links

The calendar homepage will include links to:

MedlinePlus - National Library of Medicine
<http://medlineplus.gov/>
MEL - Michigan Electronic Library
Health Information Resources
<http://mel.org/health/health-index.html>
Government, Politics & Law
<http://mel.org/government/GOV-index.html>
Local DALNET member libraries
<http://webpac.wayne.edu>

The DALNET link will first link to a page explaining that library lending policies are different for different types of libraries. It will say something like Please check the library's web page or call the library to find out it's policies before requesting materials.

From each agency's description page there will be a link to Transportation which will list public bus or van services with phone numbers and will link to Map Quest showing the location of the agency.

Each calendar event will link to the agency's descriptive page.

Appearance

Im@gine Gateway - Health will appear at the top of every calendar page along with the Im@gine logo.

Links back to the Im@gine home page and to the calendar home page will occur on every calendar page.

Colors used on any page will be compatible with those in the Im@gine logo. Graphics will be health care related.

The Im@gine Gateway – Health will comply with the 1999 World Wide Web Consortium's (W3C) Web Accessibility Initiative Fonts, spacing, and maneuverability will be consistent with these universally accessible guidelines. Examples are:

- provide text equivalents for all images and multimedia such as animations, audio and video
- ensure that all information conveyed with color is also available without color identify headers for data tables and make line-by-line reading sensible for layout
- tables provide summaries of graphs and charts
- identify document language and any changes of the language

Complete guidelines can be found at www.w3.org/WAI
