

The DALNET Indexes Task Force is charged with the following: to recommend a base set of indexes to be used in the migration from NOTIS to Horizon. The entire task will consist of three parts:

1. Choosing the indexes by the deadline of June 15;
2. MARC mapping by the deadline of June 15. The mapping will be done by a subcommittee of the Task Force;
3. Setting other indexing limits, such as format, location, itype, language, collection, item status. No deadline has been set.

Meetings have been held on May 21, 28 & June 2. There is an additional meeting set for June 3 (all at UD-M McNichols Campus). Other meetings will be set as needed to meet the deadline.
