**SUBJECT:** High School Graduates Summary

**DATE:** February 15, 1988

Please look over the attached report and select the High Schools adjacent to your campuses for analysis.

Our goal is to increase enrollment from our district High Schools by at least 1% each year. We can do better.

Please divide the High Schools into two groups, those below 20% and those above 20%. Working with your staff, please make plans for increasing enrollment from these High Schools tailored to their location, size, and needs. Please be prepared to share these plans at the next Chancellor's council.

Now that U of M and MSU have stopped signing football players, we can recruit those who are left for our OCC team.

From: Martin A. Orlowski,  Director,  
Office of Institutional Planning & Analysis

Subject: 1992 Oakland Community College High School Penetration Report

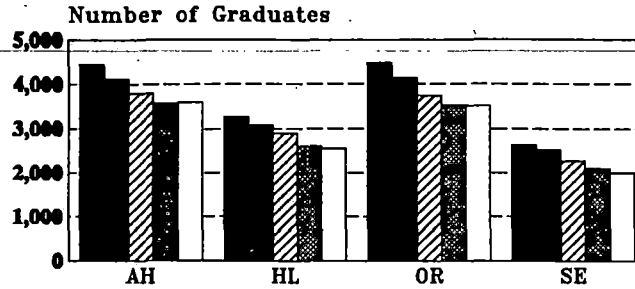

Date: February 5, 1993

Each year the Office of Institutional Planning & Analysis prepares the High School Penetration Report which depicts five year trends in high school graduation levels and the rate at which these graduates enroll at OCC. Students represented in this report include those who graduated from Oakland County high schools in either January or June and who subsequently enrolled at OCC the following September (Fall term). The attached report covers the period 1988 through 1992.

In order to provide an indication of OCC's recruiting efforts the report is divided into OCC campus recruiting regions. Each region is further divided into two sections, Public and Private high schools. Highlights from this years report include:

- As a whole, graduation levels from public high schools in Oakland County are showing signs of stabilizing. In recent years the number of high school graduates had been declining; in 1992 a slight increase (0.2%) occurred over 1991 levels.
- However, graduation levels from private high schools in Oakland County continue to decline, dropping 10.3% between 1991 and 1992.
- According to the OCC 1992-93 Environmental Scanning Report, "The pool of high school graduates will decrease through 1992-93, and begin to increase through 2004" (p. 27). The information depicted in the following graph adds support to this prediction.

**OAKLAND COMMUNITY COLLEGE**  
**Oakland County High School Graduates**  
**By OCC Campus Recruitment Regions**

Fall 1988	4,452	3,270	4,484	2,636
Fall 1989	4,124	3,079	4,133	2,512
Fall 1990	3,803	2,888	3,739	2,271
Fall 1991	3,565	2,610	3,533	2,099
Fall 1992	3,597	2,544	3,519	1,999

- Nearly one quarter (23.5%) of all Highland Lakes region high school graduates enroll at OCC.
- However, the extent to which each OCC campus recruiting regions are attracting county high school graduates varies dramatically as evident in the following graph.
