OAKLAND
COMMUNITY
COLLEGE

Registration Credit Hours

This report provides Oakland Community College registration activity for the Summer I 2007 term. The counts for the Summer I term include the first 7.5 week courses along with the 15 week courses; while the Summer II term counts include the second 7.5 week courses. Data extracts were taken daily at 6 a.m. Each data extraction includes: run date, total college counts, and campus counts for the previous registration day. The final set of data presented is based on student records in which a student's status is active within a course. Students who withdrew from all courses (or whose status is not active in any course) are not included in student credit hours. The credit hour numbers are cumulative in nature and show the volume of activity up to a given day during the entire registration period.

In reviewing this information, please note the following:

- When comparing credit hours from day to day, only a NET gain or loss can be calculated. Adds, Drops, Cancellations, and N Registrations cannot be evaluated.
- Credit hours are assigned to the 'District-wide' category when a location other than the five campuses are noted. This could be a result of a delay in assigning a campus to a course or section, or could include credits by examination, externships, internship co-ops.

Summer I 2007 Credit Hours

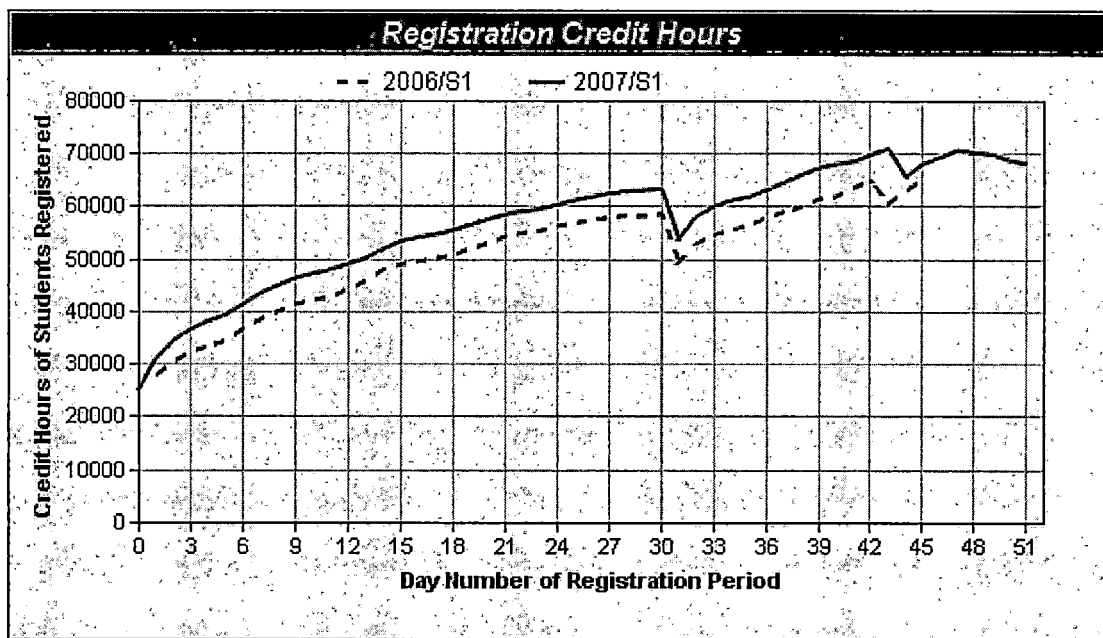

| | Date | College-wide | AH | HL | OR | RO | SF | Dist v |

Registration Headcounts

This report provides Oakland Community College registration activity for the Summer I 2007 term. The counts for the Summer I term include the first 7.5 week courses along with the 15 week courses; while the Summer II term counts include the second 7.5 week courses. Data extracts were taken daily at 6 a.m. Each data extraction includes: run date, total college counts, and campus counts for the previous registration day. The final set of data presented is based on student records in which a student's status is active within a course. Students who withdrew from all courses (or whose status is not active in any course) are not included in student headcounts. The headcount numbers are cumulative in nature and show the volume of activity up to a given day during the entire registration period.

In reviewing this information, please note the following:

- When comparing headcounts from day to day, only a NET gain or loss can be calculated. Adds, Drops, Cancellations, and New Registrations cannot be evaluated.
- Headcounts are assigned to the 'District-wide' category when a location other than the five campuses are noted. This could be a result of a delay in assigning a campus to a course or section, or could include credits by examination, externships, internships, or co-ops.
- The category of 'multi-campus' indicates the number of students enrolled in more than one campus location.
